Treatments can be customized to enhance your inner and outer self by keeping your needs and preferences in mind. These treatments include Krashada Acupressure Therapy™ and Japanese Style Acupuncture, a "needle-less" acupuncture using micro currents and therapeutic custom color-light.

Simple Beauty: Fall Look

Simplicity rules. Traditional makeup reveals the beauty from within.

Translucent and luminous foundation lets your natural radiance shine through.

Shimmery, high-shine metals combined with a deep lustrous blue shadow give you modern "smoky" eyes.

Powdery and angelic soft pinks and peaches for the cheeks define the face while giving a soft glow.

Nude lipsticks paired with a shimmery lip gloss giving a fresh and natural look.
